

# **NLP Capstone (CSE 481N)**

Spring 2024

Noah Smith

Write down:

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

# Objectives

- Intensive 10-week experience in successfully completing a challenging, well-scoped research project

This includes honing your technical skills to quickly absorb and adapt new technical knowledge, gaining experience in complex programming, performing thorough experiments and analysis, and learning how to find a path when faced with negative results.

Also:

- technical communication skills
- advisory role to other teams
- project management practice
- (in some cases) benefits to researchers, practitioners, society

Write down:

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

# Project Options

- ❖ **Reproduce** experiments from recently published NLP research.
- ❖ **Design your own.**

Write down:

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

# Structure

- Teams of 3 ( $\pm 1$  possible)
- Grading (everything in blue is shared with your team):

Blog posts (initially with prescribed structure, increasingly less so)	×10		
• #1, #2, #5, #6, #7, #8		4% each	24%
• #3 is the project proposal			9%
• #4 and #9 are individual		4% each	8%
• #10 is the final report			9%
Five-minute updates (given in lecture; three slides max)	×4	4% each	16%
Final poster presentation			14%
Feedback to other teams' blog posts and presentations, within 24 hours			20%
• Meeting time will be a mix of structured and semi-structured activities and time to work with your team and consult instructor and TAs.			

- Write down:
1. your name
  2. what you're looking for in a team
  3. what's the most exciting thing you've learned about related to NLP
  4. Project ideas?

# Important Tools

- Ed discussion board
- Templates for final reports
- Google credits
- Course staff plus our networks

Write down:

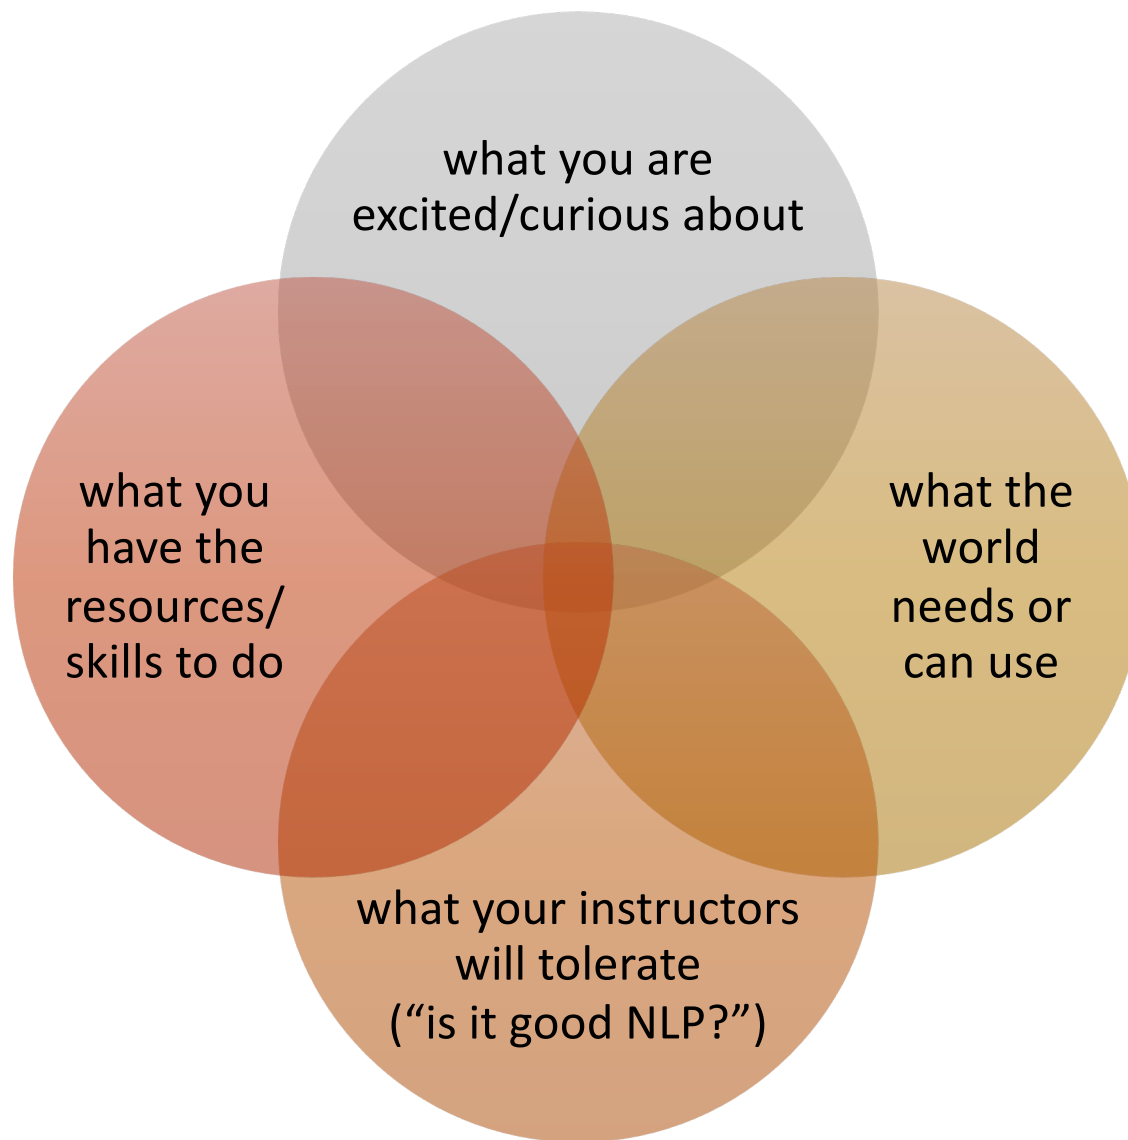

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

# Step 1: Teams and Projects

- Crafting a good question is often the hardest part of research!
- Getting to a great project requires critical thinking and open-mindedness *at the same time*
- You and your team will succeed (or not) together
- Today: individual introductions, high-level idea discussion
- Thursday 3/28: focus on forming teams and brainstorming
- Tuesday 4/2: **first report is due**

Write down:

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

Write down:

1. your name
2. what you're looking for in a team
3. what's the most exciting thing you've learned about related to NLP
4. Project ideas?

# Introductions

- Instructor: Noah A. Smith
- TA: Margaret Y. Li
